HW-KF008

FEATURES AND HIGHLIGHTS

Technical parameters

▪ Rated Voltage:	AC 220-240V
▪ Training Modes:	Active / Passive / Infinite / Automatic
▪ Active Resistance:	8 levels, approximately 0.2 N.m per level
▪ Passive Speed:	15-65 rotations per
▪ Infinite Speed Adjustment:	Speed can be adjusted incrementally by 1 rotation
▪ Timer Function:	Training can be set for 5, 10, 15, 20, 25, or 30 minutes as needed
▪ Net Weight of Product:	18 kg
▪ Product Dimensions:	60 x 42 x 98 cm (±5 cm)
▪ Packaging Dimensions:	75 x 65 x 100 cm

Features

It offers multiple training modes, including simultaneous upper and lower limb movement, dual-mode for both active and passive training, reverse training, and 8-level resistance adjustment.

Handle

It is equipped with specialized training handles with comfortable foam padding on the outside for durable and comfortable training without causing hand discomfort.

Lifting bracket

The device is height-adjustable, allowing users to customize the handle height based on their own height. The lifting range is 10cm ± 1cm.

Design

It is designed with a user-friendly approach, versatile for both hands and feet, making it an excellent choice for home healthcare settings.

Shell material

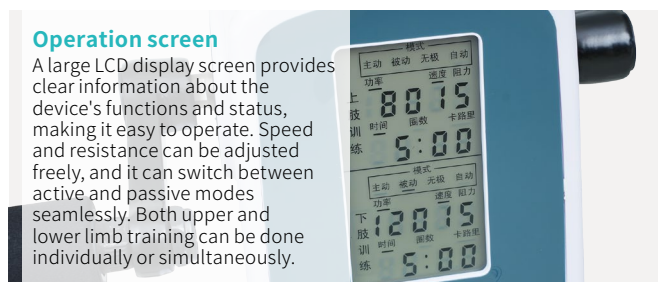

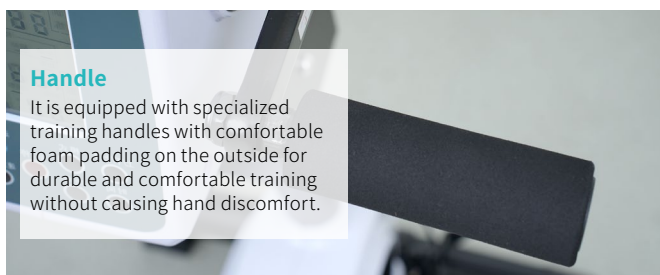

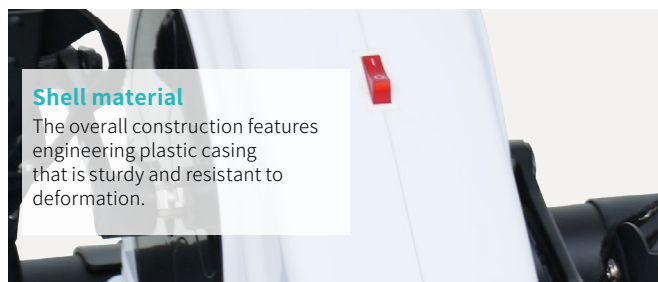

The overall construction features engineering plastic casing that is sturdy and resistant to deformation.

Operation screen

A large LCD display screen provides clear information about the device's functions and status, making it easy to operate. Speed and resistance can be adjusted freely, and it can switch between active and passive modes seamlessly. Both upper and lower limb training can be done individually or simultaneously.

Foot pedal

It includes anti-slip foot pedals to ensure training safety and prevent slipping.

As the circumstance of printing, the photos might have minor difference on color, tactile from real products.
As the update of design and improvement, parameters and outlook of products might change, thanks for understanding.
