HWA98-5

FEATURES AND HIGHLIGHTS

Technical parameters

External size (LxW):	2140x1080x(750-900)mm
Height(without mattress):	580-790mm(±10mm)
Back-rest Adjustment:	0-70°
Reverse Trendelenburg:	0-6°
Trendelenburg:	0-6.5°
Overall height adjustment:	750mm-900mm ±10mm
Leg-rest Adjustment:	0-60°
Power supply:	AC220V
Input power:	250VA

Technical configuration

<input checked="" type="checkbox"/> Mattress	1 pc
<input checked="" type="checkbox"/> Basin	1 pc
<input checked="" type="checkbox"/> Hand controller	1 pc
<input checked="" type="checkbox"/> Handle	2pcs
<input checked="" type="checkbox"/> Leg Support	2pcs
<input checked="" type="checkbox"/> Castors	4pcs
<input checked="" type="checkbox"/> Central Locking Pedal	2pcs

QUALITY CONTROL

SAIKANG medical, as a pioneer in the field of medical furniture, always choose branded suppliers strictly to ensure the safety and reliability of raw material. SAIKANG adopt robot welding, automatic epoxy coating, efficient assembly line, dedicated operator, rigorous quality control, only to guarantee SAIKANG's commitment on quality

Design

The overall design is humanized and modern, and it is an obstetric and disease comprehensive bed integrating obstetric bed, hospital bed, examination bed and operating bed.

Bed material

The bed frame is welded by 30*60mm, ≥ 1.5 mm high-quality rectangular steel, beautiful and burr-free, with strong bearing capacity. It can bear up to 200kg.

Paintwork

The surface of the bed body is treated with electrostatic spraying, full anti-rust treatment, anti-aging, not easy to rust, antibacterial and environmentally friendly.

Welding | Craftsmanship

The overall welding is adopted by the robot, and the appearance is smooth, stable and reliable.

Back-rest

The back section can be raised and lowered to assist pregnant women to sit and stand, and relieve the pressure of pregnant women during labor.

Leg-rest

The leg section can be lifted and lowered to assist pregnant women to give birth smoothly, and the posture can be adjusted arbitrarily, such as sitting, kneeling, lying down, and squatting.

Trendelenburg&Reverse Trendelenburg

Electric control is used for trendelenburg and reverse trendelenburg.

Height Adjustment

The overall height of the bed body can be adjusted to facilitate the adjustment of the height of the bed, which is more suitable for nursing staff to take care of pregnant women.

Guardrail

Imported PP one-time molding guardrail, double hydraulic rods, beautiful and easy to clean.

Head & foot board

European-style head and foot board, resistant to fading and aging, high strength, easy to clean, firm and strong; hidden locking switch, stable and reliable, easy to disassemble, more suitable for the concept of a family-oriented and warm delivery room.

Leg support

Manual multi-angle adjustment, more convenient to use.

Bed surface

Made of high-grade leather, it is comfortable and beautiful. The pink bed surface design can relieve the psychological pressure of parturients; the 8cm thick high-density sponge is comfortable and elastic.

Motor and controller

Brand L&K DC motor lifting system, constant speed, quiet, no static, safe voltage (24V).

Handle

The power-assisted handle can be adjusted at multiple angles, and the humanized design is safer and more convenient.

Caster

It adopts high-grade silent polyurethane wear-resistant casters with a diameter of 125 ± 5 mm, which are silent and wear-resistant, and move smoothly. The built-in fully enclosed self-sliding bearing; one foot brake, four wheel brake.

Central locking system

The side central control brake system makes the delivery bed more stable.

Mattress

High-density foam mattress, not removable. The U-shaped incision design at the buttocks is more convenient for doctors to operate.

Basin

The stainless steel dirt basin is standard, strong and durable, easy to clean, easy to install and disassemble.

As the circumstance of printing, the photos might have minor difference on color, tactile from real products.
As the update of design and improvement, parameters and outlook of products might change, thanks for understanding.
