

# HWR-R09

INFUSION PUMP CART

PRODUCT  
DATA SHEET

# HWR-R09

## FEATURES AND HIGHLIGHTS

### Product Introduction

The main structure of this trolley is made of high-quality aviation-grade aluminum alloy material, which is reliable in structure, flexible and convenient to use, and has the functions of an infusion pump and a syringe pump trolley. It is used in hospital wards, operating rooms, emergency centers, etc.

### Technical Parameters

▪ Dimensions L×W×H	580×490×1750mm
▪ Equipment mounting column diameter	25mm
▪ Storage frame size L×W×H	300×180×150mm
▪ Machine weight	13kg
▪ Caster design	3 inch medical grade silent wheel, pedal brake
▪ Rated voltage	220V
▪ Rated current	10A
▪ One for six power plug design	

## Material

The whole vehicle adopts medical grade aviation aluminum alloy, adopts high-voltage electrostatic spraying process, and uses imported environmentally friendly antibacterial plastic powder to ensure that the product meets the medical and health requirements, and the surface is matte and non-dazzling. The base is made of ABS medical grade plastic.

## I.V. Pole

The top of the column is equipped with a four-claw infusion stand, which can hang four different infusion bags at the same time.

## Equipment Column

The ultra-long one-piece equipment mounting column, with a diameter of 25mm, can perfectly match various infusion pumps and syringe pumps.

## Basket

There is a metal mesh basket on the column, which can store medicines and various groceries.

## Socket

The back is equipped with one-to-six power plugs, and is equipped with a power switch, which can support 6 devices at the same time.

## Casters

3-inch medical-grade silent wheels with brakes, after tens of thousands of kilometers of long-term durability tests, flexible and durable.

As the circumstance of printing, the photos might have minor difference on color, tactile from real products.  
As the update of design and improvement, parameters and outlook of products might change, thanks for understanding.
