

HW-PT004

MOBILE MEDICAL BRIDGE CEILING
PENDANT

HW-PT004

FEATURES AND HIGHLIGHTS

The mobile medical bridge ceiling pendant can be connected with external power supply and medical air source, bearing 200kg, prevent the shortages of gas electricity supply when adding nursing machines.

Product Application: Suitable for OR and ICU room.

Optional Accessories:

- * Net basket - Stainless steel net basket
- * We manufacturer and provide different standard of medical gas outlet: British Standard, American standard, German standard, French standard, Japanese Standard, etc.
- * Different standard of medical gas outlets & adapters: British standard, French standard, German standard, Diss, Ohmeda, Chemetron, and etc.
- * Inhalers - All kinds of oxygen inhalers (disposable, simple, external hanging, etc.)
- * Negative pressure regulating valve

Material and process

Appearance Design

Minimalist pushcart design for emergency care needs, the whole bridge pendant is fully sealed, no sharp angle to prevent the impact.

Painting

Imported plastic powder, electrostatic painting process, painting thickness 0.12mm, brightness 60°, paint can resist 50kg impact.

Welding

Panasonic Robot ensure 360° full smooth welding.

Material

The tensile strength of aluminum alloy frame is more than 295MPa, some connecting parts are made of cast iron ≥ 200 MPa, and the net load is more than 300kg; one-off extrusion molding, and the surface undergoes the primary oxidation treatment.

Function

Displacement System

Equipped with 3-inch double-side castors (two castors with brakes), no worn-out after bearing 200kg, running 30KM and passing obstacles 500time.

Configuration

IV Pole with Four Hooks

The length of IV pole is 600mm, can be retractable, with four hooks, single hook can bear 4 kg.

Drawer

Silent self-priming track, no damage after 10,000 times push-pull tests, and the handle position is integrally formed by pressing with mould.

Instrument Platform

The size of the table top is 450*500mm, and the height of table surface can be adjusted. The table top is made of aluminum alloy panel with iron square tube inside, can bear ≥ 50 KG; with external aluminum alloy hanging frame.

Medical Gas

It is equipped with medical gas on both sides of the cabinet and column. The following configurations can be customized,
1. The number of medical gas
2. Interface standard and position
Gas port adopts secondary seal, three states (on, off, pull), support maintenance operations while it is working.

Medical Gas

One power input terminal, one oxygen input terminal and one negative pressure suction input terminal.

As the circumstance of printing, the photos might have minor difference on color, tactile from real products.
As the update of design and improvement, parameters and outlook of products might change, thanks for understanding.
