HWE241

FEATURES AND HIGHLIGHTS

Technical parameters

▪ Overall dimension (LxWxH)	590×500×(760-940) mm	▪ Net weight	2.9 kg
▪ Folding size	600×100×730 mm	▪ Packing size	810×520×550 mm

Design

Specially designed for the elderly and people with walking difficulties. It is ergonomic, safe, practical and comfortable.

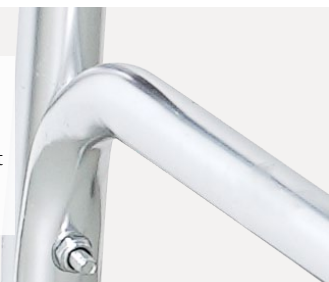

Material

Aluminum alloy frame, large frame tube diameter 25mm, leg tube diameter 28mm, tube wall thickness 1.2mm, good safety performance and long service life. The maximum carrying capacity is 110kg.

Technique

The surface of the pipe is oxidized, making the surface smooth and not easy to rust.

Height adjustment

8 levels of height adjustment, adaptable to people of different heights.

Handle

Foam handle, anti-slip and comfortable.

Foot pad

The foot pads are made of wear-resistant, elastic, non-slip rubber material with high surface friction coefficient, which has good grounding performance and good stability.

Castor

The front castors outer skin is made of high-quality rubber material, which is non-slip and wear-resistant. The caster hub is made of engineering polypropylene, which is strong and durable.

Folding function

One-touch folding, easy storage, does not take up space, and easy and convenient opening and closing operation.

As the circumstance of printing, the photos might have minor difference on color, tactile from real products.
As the update of design and improvement, parameters and outlook of products might change, thanks for understanding.
