HWE501(45)

FEATURES AND HIGHLIGHTS

Technical parameters

▪ Length	870-1070 mm
▪ Gross weight	2.7kg
▪ Packing size	450×450×960 mm

Design

Designed for the elderly and people with walking difficulties, ergonomic, safe, practical and comfortable.

Material

Aluminum alloy material, tube diameter 22mm, tube wall thickness 1.2mm, good safety performance, long service life. The maximum bearing capacity is 100kg.

Technology

The surface of the pipe is anti-oxidized, smooth and not easy to rust.

Arm support

The elbow bracket is made of engineering polypropylene material once injection molding, antibacterial and anti-aging. Humanized design for better elbow support.

Handle

Ergonomic non-slip grip for skin comfort. 90 degree right Angle, reduce the pressure on the handle, walk more effortless.

Cane shaft

High quality aluminum alloy material, 10 speed height adjustment, suitable for 1.50m-1.75m people, easy to adjust by hand, flexible, safe and reliable positioning.

Anti-slip door pad

The foot pad is made of elastic, wear-resistant, non-slip rubber material with high surface friction coefficient. Increase friction, anti-slip effect is better.

As the circumstance of printing, the photos might have minor difference on color, tactile from real products.
As the update of design and improvement, parameters and outlook of products might change, thanks for understanding.
